GRAFIMANIA

V malém rybníčku je spousta kachen. Najdeš dvě, které vypadají úplně stejně?

Vybarvi obě hnědě a všechny ostatní žlutě!

V malých čtverečcích je vždy část některého zvířátka nakresleného vpravo.

Spoj čarou čtvereček se správným zvířátkem!

Filip chce konečně jednou navštívit svého kamaráda Felixe, ale není to vůbec jednoduché. Najdeš správnou cestu doupětem?

Filip se projíždí krajinou. Když spojíš body podle pořadí číslic – 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20 –, uvidíš, na čem Filip sedí.

Filip přinesl z trhu domů ovoce a zeleninu. Bohužel se mu všechno z košíku rozsypalo. Zakroužkuj červeně ovoce, zeleně zeleninu!

Filip zná všechna zvířata na statku. Tady ovšem něco nesedí! Které zvíře na statku nežije? Přeškrtni ho!

Zjisti, jaký klíč se hodí do jakého zámku, a spoj je čarou.

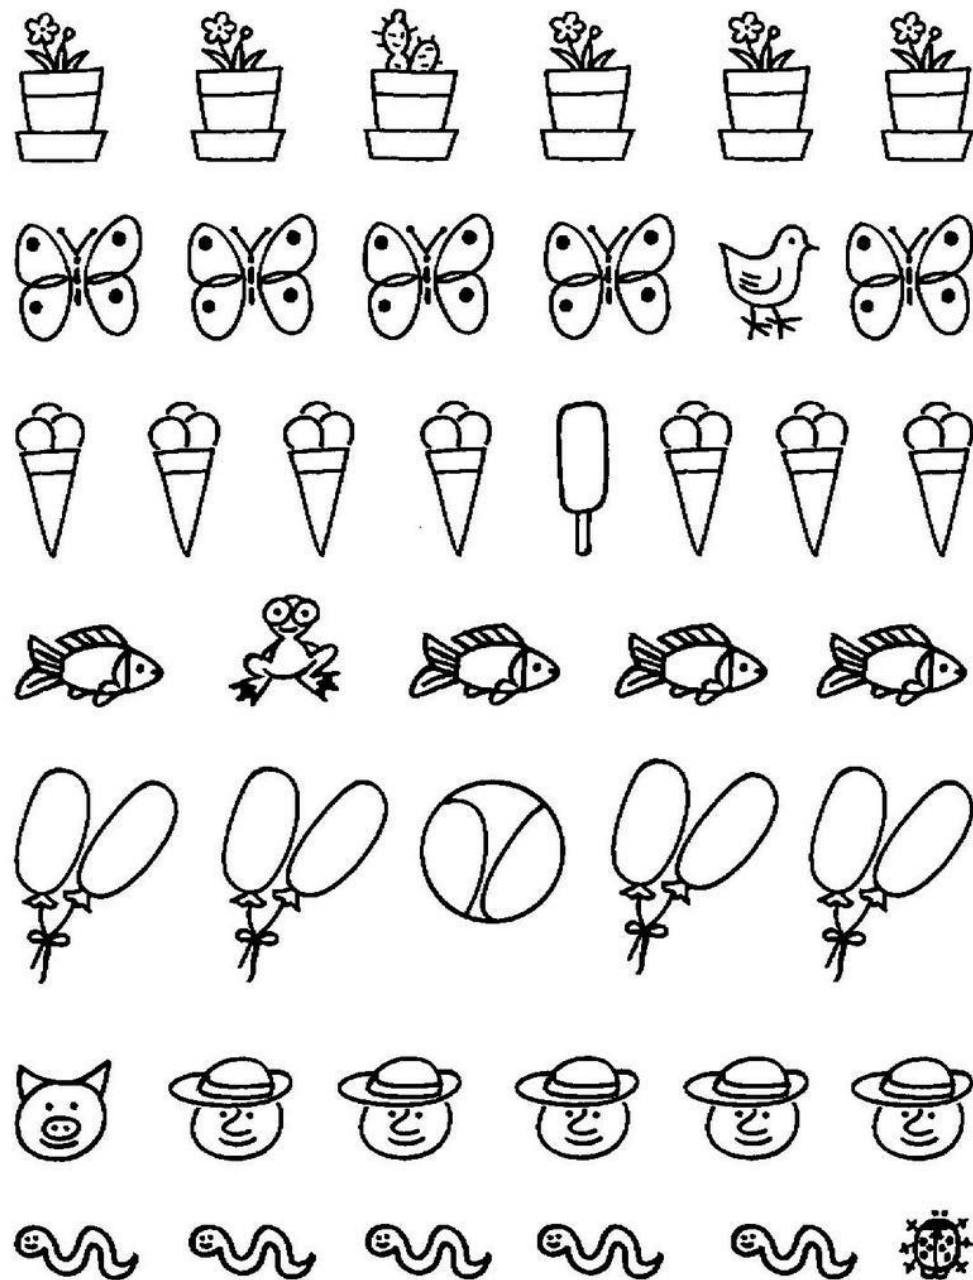

Zeleně vybarvi to, co je živé. Žlutě vybarvi to, co je neživé.  
Kterých obrázků je víc? Spočítej, o kolik je jich víc.

Vždy dvě myšky jsou stejné. Spoj je k sobě čarou.

Vybarvi obrázek, který je jiný než ty ostatní.
